

Lesson 4: Liver

Worksheet 1 of 1

Use the picture provided to draw the liver. Then with your classmates or your family, discuss what you know about the liver. To help you get started, we have provided some topic ideas below.

- What does the liver do?
- Where is the liver located?
- How many lobes does a person's liver have?
- What shape is the liver?
- What happens when your liver is sick or not working properly?

Student Impressions

A large, blank teal-colored area provided for students to write their impressions or answers.
